2019 Fundraising Campaign
February 28th - May 20th

Target: \$15,000

[DONATE NOW](#)

Your help means a cure for BCM

Dear Friends and Families,

We need your help to keep the BCMFF Patients Registry going!

We need financial support to keep the Registry alive. It takes **\$15,000** per year. This is the cost it takes to host, run and maintain the Registry, its website and its software and to pay the Data Protection Officer.

As you can see, the Registry is an essential tool to foster the research towards a cure. We need everyone to get active. If every family did one **fund-raising activity**, no matter how small, we would easily reach our goal.

The Registry has been created by [BCM Families Foundation \(BCMFF\)](#), the only non-profit patient-led organization worldwide with the mission to eradicate BCM. It is a crucial part of our objective to find a cure.

Help us to keep it going!
