Today take action!

This year marks the tenth anniversary of the BCM Families Foundation!

As we celebrate this important milestone, let's seize the occasion on International Awareness Day and take action:

1. On May 20th let's celebrate the International Blue Cone Monochromacy Day by joining the BCM Registry at www.BCMRegistry.org

All individuals (including minors) with a confirmed genetic diagnosis of Blue Cone Monochromacy are eligible for participation in the BCM Patient Registry. The registration procedure is easy and fast.

Through the BCM Registry, we will help to gain a better description of the clinical features, variations in phenotype and the natural history of this disease, meaning its characteristics, management, and long-term outcomes with or without treatment. This will ultimately support research and care.

Find out more at <https://www.bcmregistry.org/>

And watch the Registry Manager Tutorial here: <https://www.blueconemonochromacy.org/patient-registry/>

Join the Registry

2. On May 20th let's celebrate the International Blue Cone

Monochromacy Day by donating to the BCM Families Foundation.

BCM Families Foundation is a non-profit organization totally dedicated to the cure of this rare eye disease. 100% of donations that we collect go exclusively to fund the most promising medical research which have as their purpose the treatment or the cure of BCM.
